Carenet Health Class & Event Registration

Maximize Attendance for Virtual and In-Person Classes and Events

Health education has proven, positive effects on patient outcomes while simultaneously reducing costs. Whether it's online information, classes, or in-person support groups, Carenet Health Class & Event Registration can help your health system or practice improve patient health literacy, fill seats, and increase reimbursement.

Part of the Carenet Intelligent Scheduling solution, Class & Event Registration is the only solution that provides a convenient way for patients to self-register for classes and events online or by phone with live voice registration. Simplify registration management and meet patient expectations with Carenet's industry-leading patient engagement platform.

With Class & Event Registration, you can:

Make it easy for patients to search, select, and register for virtual and in-person classes and events.

Fill seats and reduce no-shows with a modern, consumer-friendly scheduling experience.

Improve patient outcomes through classes and support groups.

Efficiently manage registrations with an intuitive and flexible event scheduling platform.

Features

Online and live voice registration
Give patients a choice between the convenience of online self-registration and professional live voice registration available 24/7/365.

User-friendly interface
Make the registration and check-out process easier with a modern user interface that mirrors best-in-class online retail experiences.

Branding and customization
Add your logo and change headers, text, and button colors to reflect your brand. Further customize the experience by adding discount codes, required fields, and more.

Cross promotion
Recommend classes that may be useful to patients and family members based on their search and booking preferences.

Enhanced filtering
Simplify selection and registration by allowing patients to filter by facility or zip code, date and time range, and class category or type.

Email and text messaging
Send email confirmations and email or text reminders to keep patients informed and reduce no-show rates.

Reporting and analytics
Gain insight into participant demographics, volume, and new patient mix as well as which channels drive the best results.

API and integrations
Optimize efficiency and productivity through API availability and integration with most EHR, CRM, and revenue cycle management systems.

Maximize attendance and help patients get the information and support they need to improve their health and wellness with Carenet Class & Event Registration. Combine Class & Event Registration with other Carenet solutions such as Communication & Reminders and Health & Wellness Campaigns to further modernize patient access, action, and adherence.

Modernizing Patient Engagement. Maximizing Patient Outcomes.

Carenet offers the most comprehensive patient engagement platform in the industry. We are the only provider that seamlessly combines both voice and digital channels to provide the modern experience healthcare consumers want while solving complex challenges to patient access, action, and adherence.
